ClearPark for VirtueMart Entry Edition V1.0 for Joomla 1.5

EUR121.00 (including 21 % tax)

With the Entry Edition, the user receive a Payment Extra Info script that he can customise with the ClearPark identifier and all the script that allow processing of ClearPark addendum solution.

The CleaPark Reditrect Fast Track Solution with Addendum provide a better security as it check all payment order. It is required when processing payment in belgium.
This consists in verifying the originator of the payment request, provide additional information to clearpark and receive notification on the payment status.

With "ClearPark for VirtueMart" entry edition, all the scripts that allow the verification, provide extra informatoin and receive the notification payment status are provided.

There is no advance Configuration interface.
You have to modify the PHP code in "Payment Extra Info" field i nusing the standard VirtueMart interface.
To benefit of a more easier configuration interface, refer to the Basic Edition that provide this kind of interface.
