DEXIA Live merchant account

EUR121.00 (including 21 % tax)

DEXIA Live merchant account is packaged with "DEXIA PayButton for VirtueMart" using native Joomla 1.5.x
It includes :

- the one time setup fee of 40 EUR
- the annual fee of 60 EUR.
- An addition fee of 0.75 EUR is charged per transaction.

It is invoiced at the end of the month for which the total amount exceed 15 EUR.

If the invoice is not paid on due time, the contract will be closed. The remaining fee for the other coming month will not be returned and a new setup fee will be charged to re-open the contract.

The 'DEXIA PayButton for VirtueMart" can also be [downloaded](#) for free. It is present in our Documentation / DEXIA PayButton section.

This give you the opportunity to evaluate this new VirtueMart payment method.

In addition, this component contain a full integrated setup that allows you directly update the DEXIA information like the "vendor dexia bank account number".

A test DEXIA merchant account is also automatically created when you submit the settings to credit-card.be. A live DEXIA merchant account is also created with a "pending" status until you decide to purchase this live merchant account.

When the merchant account are created, you will have an addition "Merchant Menu" that will give you the possibility to see the contracts as well as the transaction history used for the invoicing.

Dexia PayButton also includes a mechanism to detect the double payment order. It uses the transaction history to detect such "double payment" request.
